Just an FYI – CES will be holding a Risk Assessment Workshop for their Mendota CCS project on July 16th, from 9 am – 1 pm. The workshop will use a survey to rank potential project risk in terms of their likelihood and severity. Results of the Risk Assessment will inform the Risk Mitigation Plan they are developing as a part of their California CCS permit application as required by the California Air Resources Board.

R9 will not participate in the workshop.

Regards,
Calvin
